

Upgrade your Asus Eee to Windows 7

02/01/10 at 7:53 pm

Go to <http://support.asus.com/download/download.aspx?SLanguage=en-us>

Search for Eee Family, Eee PC, 1005HA and download the following to an external media such as a USB stick.

- BIOS (v.1102 or above)
- Chipset Intel 945 (v9.1.1.1016)
- VGA Intel (v8.15.10.1867)
- SATA AHCI (v8.9.0.1023)
- Touchpad (v13.2.6.1)
- Bluetooth (v6.2.0.9600)
- KB Filter (v1.0.0.3_32)
- Audio (v6.0.1.5898)
- LAN (v1.0.0.23)
- Wireless 785H (v8.0.0.238 or above)
- HotkeyService (v1.11.01)
- Super Hybrid Engine (SHE) (v2.09)
- ASUS Update (v1.03.03)

Then..

1. Under Windows XP in your Eee PC, upgrade BIOS via the ASUS Update.
2. Install Windows 7 operating system from the DVD. Ensure that it is in the same language as your current Windows® XP operating system.
3. Install required drivers, utilities, and applications in the following order:
 - I. Chipset Intel 945: Run "Setup.exe"
 - II. SATA AHCI:

Select "Start"

- Select "Computer" and click the right mouse button
- Open "Manage"
- Select "Device Manager" under "System Tools" in the left hand column
- Open "IDE ATA/ATAPI controllers" in the right column
- Open the item with "AHCI"
- Select the "Driver" page
- Enter "Update Driver..."
- Use "Browse..." to locate the "SATA AHCI_v8.9.1023" folder or where you saved the downloaded AHCI driver.

- III. VGA Intel: Run "Setup.exe"
- IV. Hotkey Service: Run "HotkeyService_1.11.01.exe"
- V. Touchpad: Run "Setup.exe"
- VI. Bluetooth: Run "Setup.exe"
- VII. KB Filter: Run "PNPINST.exe"
- VIII. Audio: Run "Setup.exe"
- IX. LAN: Run "Setup.exe"
- X. Wireless 785H: Run "Setup.exe" in the "Install_CD" folder
- XI. Super Hybrid Engine: Run "SuperHybridEngine_2.09.exe"
- XII. ASUS Update: Run "AsusSetup.exe"

At this point you should be good to go!
